

Who is the DGfZ?

The German Society for Animal Production e.V. (DGfZ) was founded in 1905 as a non-profit association.

Our society represents the areas between science, administration and practice and between the scientific disciplines of animal breeding, production, nutrition and animal health.

We are the official representative of the Federal Republic of Germany in the 'European Association for Animal Production' (EAAP). In this function, the DGfZ nominates the German representatives of the EAAP's scientific committees.

We work in close collaboration and mutual exchange with other international organizations and institutions.

Our working groups

For example

- ▶ Genetic-Statistical Committee,
- ▶ Relevance of climate change in livestock farming,
- ▶ Implementation of the National Professional Program for the Conservation and Sustainable use of Animal Genetic Resources,
- ▶ Sustainable concepts for dairy farming.

Our managing board

Well renowned people from science and business work for us on a voluntary basis. Just have a look at our website!

Join us?
Contact us!

The membership fee includes the subscription to the journal 'Züchtungskunde' in both print and online version (worth over 600 € / year). As a member, you can also download individual articles free of charge as PDF files from the website www.zuechtungskunde.de.

You can find our membership application online:
www.dgfb-bonn.de

Or send an e-mail at: info@dgfb-bonn.de

Our main aims

- ▶ Consolidation of experts in the form of task forces and working groups, to deal with current and future issues in animal production. Scientific results with practical applications, will be published in the form of recommendations, comments or presentations,
- ▶ Scientific publications of various research institutes of animal production are published in German language in our journal 'Züchtungskunde',
- ▶ Organisation of scientific conferences and symposia,
- ▶ Advisory support for political actors,
- ▶ Representation of Germany at EU level in various bodies

Our members

- ▶ animal breeders
- ▶ veterinarians
- ▶ scientists
- ▶ practitioners
- ▶ students
- ▶ research facilities
- ▶ organizations in the field of farm animal science and production of agricultural food
- ▶ federal and state officials of animal sciences and veterinary medicine

... and maybe you?

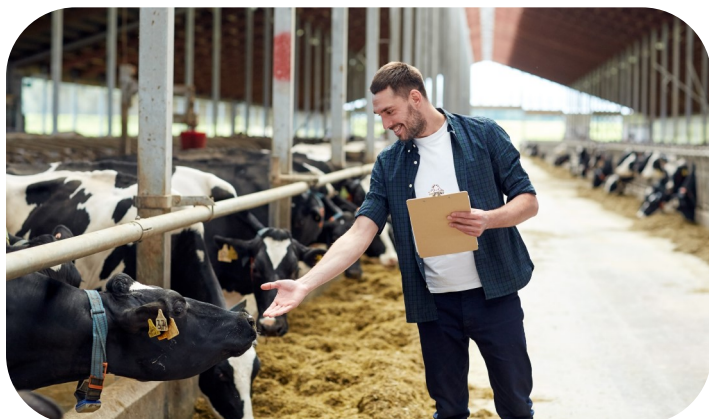

**Be well-informed for the
challenges of tomorrow**
